Local Plan

local_plan_2018_web_version.pdf (lbhf.gov.uk)

Growth areas include: White City, Wood Lane, Hammersmith and Fulham Broadway.

How we are improving connectivity in Hammersmith & Fulham

Hammersmith & Fulham is closely integrating grant funding for improving connectivity with the council's CCTV investment programme, renewing and extending the council ducting network to meet the dual priority of renewing the CCTV network whilst at the same time also utilising ducting to install more fibre to buildings to speed up digital connections.

It also part of the WLA's Expanding Opportunities programme which is creating the right conditions to accelerate investment in wireless connectivity infrastructure which Hammersmith & Fulham's Chief Executive sponsors.

Our digitally excluded areas

Hammersmith & Fulham Areas of Focus: Improving Digital Connectivity

This map shows the relationship between:

- Opportunity Areas;
- Broadband <30Mbit/s;
- Residents over 65;
- Job Seekers Allowance Claimants; &
